BASIS OF PREPARATION

The Directors have prepared financial statements to comply with and meet the requirements of the Financial Services Act, 2010. The Directors have considered the requirements of the Financial Services Act, 2010 and believe that the summary statement of comprehensive income, the statement of financial position, the statement of changes in equity and cash flows meet the requirements of the users of the summary financial statements.

The amounts in the summary financial statements have been prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards.

The summary financial statements have been derived from the annual financial statements which were approved by the board of directors on 18th March 2022.

ECONOMIC HIGHLIGHTS

The economic environment continued to face downside risks from the impact of the COVID-19 pandemic and weather shocks on growth and livelihoods as sectors of the economy struggled to recover. The Malawi economy experienced a rebound in 2021 as it experienced a real GDP growth of 3.9% despite an increase in inflation which averaged 9.25% (2020: 8.63%). The Malawi Kwacha closed the year at K816.40 (2020: K770.84) against the US

PERFORMANCE

Total income was at MK3.22 billion compared to MK2.68 billion in the prior year, representing growth of 20%. This favorable position is mainly attributable to business growth.

The company achieved a major milestone in the year with an investment in a new, robust and state of the art pension administration system to take pension administration in Malawi to a new level. The implementation was completed in the second half of the year and with this, clients should expect a whole new experience from NICO Pension.

OUTLOOK

Inflation is expected to remain in double digits due to pressures from increases in energy and food prices. However, the rate may remain moderate in the short term as the country moves into the harvest season but is expected to remain elevated in the medium term. The effects of the COVID-19 pandemic and the war in Ukraine will also have an effect.

Interest rates on short term investments are expected to remain low due to the current stance on the monetary policy rate. Inflation pressures may have an impact on the monetary policy stance which may impact the level of interest rates going forward.

Despite the expected COVID-19 and environmental challenges, the Company's focus is on enhanced customer experience and realizing operational efficiencies whilst driving innovation to develop products that respond to customer needs. The Company will continue to ensure that quality service is not compromised by investing in people and technology.

COVID -19 PANDEMIC

The COVID-19 pandemic and the disruptions that come with it remain a challenge. The business has adapted its processes over the past two years to ensure minimal disruptions to customer service.

We look forward to another successful year in 2022.
